GETTING STARTED WITH HUBVC

HubVC™

HUBVC IS A SIMPLE COLLABORATION BOARD WHERE TEAMS CAN WIRELESSLY SHARE DEVICES, WHITEBOARD, AND VIDEO CONFERENCE - ALL AT THE SAME TIME.

DOWNLOAD AIRCONNECT

Laptop + Tablet Users:

Download AirConnect at
t1v.com/AirConnect

Mobile Users:

Download the AirConnect App on the App Store (iOS) or Google Play Store (Android)

HUBVC IDLE SCREEN

1 MENU

Access your eraser and drawing tool, open a new sketch, and collapse / expand your Video Conferencing panel.

2 AIRCONNECT INFO

Download AirConnect at t1v.com/AirConnect for all Android, iOS, macOS, Windows, and Linux devices. Open the AirConnect app on your device, then enter the credentials to connect.

Select 'Share my screen' to mirror your screen on HubVC, or select 'Access HubVC' to view the Board from your device.

3 SINGLE / QUAD MODE

Toggle between viewing one content window at a time, or four content windows at a time.

4 BOARD KEY

Use the Board Key to navigate - view the active area and content windows; tap to jump to specific content or Board areas.

5 CASTED FEED

Share your screen on the Board in real time via AirConnect.

6 PAGING ARROWS

Tap directly on the paging arrows to quickly navigate to different pieces of content within the Board.

7 SKETCH

Tap 'Start Sketch' and tap anywhere to draw freehand or with a stylus. Adjust the color and size of your annotation, or erase by accessing the Drawing Tools in the Menu.

8 END SESSION

End your session. This deletes all content, resets the password, and returns the Board to the idle screen.

9 VIDEO CONFERENCE

Tap 'Start New Video Conference' to launch the HubVC Session and immediately open the Video Conferencing panel. Use this feature to start a video conference using one of the supported third party video conference applications.
