GETTING STARTED

Your Project Manager will work with you to create your T1V Story. Once your Story has been created, you will be assigned a Content Manager role where you will be able to update your content. Here's a quick list to get you started:

1. Download Story Editor at <https://app.t1v.com/story/>
2. Register your email address with Story Editor
3. Select the Story you want to edit
4. Sync your changes directly from your Interactive Wall or visit the CCC <https://media.t1v.com/CCC> to sync your changes remotely.

CONTENT MANAGER

As a Story Content Manager, you can update the following across all of your Story apps:

- Media (images, video, PDFs)
- Text
- Thumbnails

In addition to simple media and text updates, you can update content in your Story apps:

- Interactive Timeline: add / remove milestones, update timeline intervals
- Interactive Map: add / remove locations, filters
- Interactive Image: add / remove active areas
- Interactive Showcase: add / remove content (products, services, key personnel, etc...)

To make changes that aren't included on the above list, contact T1V Support.

SYNC CHANGES

Once your changes are made and saved to Story Editor, they are saved to the Cloud. To sync these changes to your Interactive Wall, you can either use the wall itself or the online portal.

Interactive Wall

Press and hold on the left of your Interactive Wall to open the admin panel. From there, select the Story you want to refresh. This will load your recent changes.

Online Portal

Visit the CCC (<https://media.t1v.com/CCC>), and select 'Restart App'. Please allow up to 30 minutes for your Story to sync. If you do not know your CCC login, contact T1V Support (support@t1v.com).

SETTINGS: ACCOUNT

Visit your Settings to Register. Once registered, you can update your profile information from the Settings page at any time. From here you can also see the version you are running and view release notes.

Refresh

Your Stories

Hover over a Story for additional options, including duplicating your Story or leaving the Story (removing your account's access to that particular Story).

STORY EXPLORER

Use the Story Explorer panel to navigate to the app you would like to preview or edit. Once you've selected the app, your preview panel will update to show you that app.

Editing Content

Navigate to the section you want to edit, and select the 'edit data' button.

Note: If you've selected content and the 'edit data' button does not appear, you will not be able to update that content with your current settings. In this case, contact TIV Support for assistance.

INTERACTIVE IMAGE

Select 'Image' in your Story Explorer, and then select the section of images that you would like to edit. Select 'Edit Data'.

Note: Your categories may differ slightly from the default categories shown in these visuals.

Edit Data

	description	iconImage	media	title	x	y
1	Take a new approach to scientific discovery		3 Items	Life Science Spaces	386	1175
2	Flexible spaces for stronger collaboration		3 Items	Experience Centers	947	878
3	Real-time data informs better, faster action plans		3 Items	Command + Control Rooms	1597	522
4	Build flexible, multidisciplinary environments for		3 Items	Learning + Education Spaces	1775	1258
5	Enhance the pro and collegiate athletic experience		3 Items	Pro + Collegiate Athletic Facilities	1319	1692

Import content from a CSV file.*
 *Your TIV Story Project Manager will provide you with a CSV file template for each of your apps. If you import a new CSV, all existing content will be replaced.

Click on a cell to update content.

Add New Active Areas

Select the green + icon to add a new active area to your Interactive Image.

Note: The grid position of your active area is indicated by the 'X' and 'Y' values. These columns indicate the pixel offsets from the lower left corner (0,0).

Media

Once you've clicked on a media cell, you can add / change images easily. Hover to delete the media.

INTERACTIVE MAP

Select 'Map' in your Story Explorer, and then select the map that you would like to edit. Select 'Edit Data'.

Edit Data

6	TVisions partners with exhibit house Annie Davis to win	2 Items	March		Wins Best New Product Award at EMMY Awards	2012
7	TVisions works with Digital	1 Item	July		TVisions + Digital Experience Store	2012

Import content from a CSV file.*

*Your T1V Story Project Manager will provide you with a CSV file template for each of your apps. If you import a new CSV, all existing content will be replaced.

Click on a cell to update content.

Add Timeline Milestone

Select the green + icon to add a milestone at the end of the timeline, or right click a row and select 'Duplicate' to add a milestone between existing milestones.

Media

Once you've clicked on a media cell, you can add / change images easily. Hover to delete the media.

BACKGROUNDS + LOGOS

You can change a background or logo image that isn't part of a specific application by selecting the image you wish to change in your Story Explorer. This will open the current image in your Properties panel and give you the option to change the image from there. Select 'change image' to select a new image that will replace your current image.

Note: Your categories may differ slightly from the default categories shown in these visuals.

Select the image you want to use or upload a new image.

TEXT

You can change text that isn't part of a specific application by selecting the property you wish to change in your Story Explorer. This will open a text editor section under 'Properties'. From here, you can update the text and style using the built-in text editor menu or HTML.

ADDITIONAL RESOURCES

ABOUT T1V

We create visual collaboration software used by some of the most innovative companies in the world.

T1V is a visual collaboration software company. Our ThinkHub® platform provides a digital workspace for distributed teams to come together for real-time, flexible collaboration across in-room, hybrid, and virtual meeting environments.

In addition to its award-winning ThinkHub collaboration software, T1V offers ThinkHub Education for active learning in higher education, and T1V Story for one-of-a-kind brand experiences.

T1V is a leading innovator in large-scale, interactive software technology, with 19 issued patents in visual collaboration software. Our software ecosystem supports total interoperability with the many devices, programs, and platforms of today's hybrid meeting and learning spaces — enabling our customers to truly collaborate anytime, anywhere.
